Rental Saga

softylines

📅 2023 - 2024   📍 Location

- Boosted user bookings by 25% by developing a dynamic car rental website featuring an engaging landing page and an intuitive reservation calendar, while also conducting thorough code reviews to ensure optimal performance and maintainability.

WeQuizz

softylines

📅 2024 - 2025   📍 Sousse, Tunisia

- Seamlessly integrated the HostLive game across the front-end and back-end using Socket.io, enabling real-time multiplayer functionality.
- Designed and developed custom plugins for the image editor and math editor in CKEditor 4, eliminating reliance on third-party solutions, enhancing functionality, and reducing operational costs.
- Enhanced the drag-and-drop question functionality, improving user experience, streamlining interactions, and boosting overall system performance.

Scrum Master and Frontend Developer

softylines

📅 2024 - 2025   📍 Sousse, Tunisia

- Led cross-functional teams delivering 5 web applications by actively managing Scrum processes and optimizing UI performance.
- Managed a cross-functional team, ensuring 95% task completion efficiency within Agile workflows.
- Identified and resolved 50 bugs improving system functionality for 300 users across multiple interfaces.

Improved security

softylines

📅 2024   📍 Sousse, Tunisia

- Improved security in Rental saga project by creating a package managing permissions.
- Elevated efficiency by 3%.

React Application Build Optimization

softylines

📅 2023   📍 Sousse, Tunisia

- Optimized React application build by seamlessly integrating Webpack, improving performance by 10% and reducing bundle size by 30%

EDUCATION

Engineering Degree in Computer Science

Ecole Polytechnique de Sousse

📅 2023 - 2025   📍 Sousse, Tunisia

Engineering Degree in Computer Engineering

Episup

📅 2022 - 2023   📍 Tunisia

SUMMARY

With 4+ years of experience in frontend development, gained through a rigorous alternate program that combined studying and working, I specialize in creating dynamic and responsive web applications using React and modern web technologies. Balancing my academic pursuits with hands-on professional experience has allowed me to deliver intuitive user experiences and optimize application performance, leading to increased efficiency and user engagement. I bring a proactive approach to learning, problem-solving, and technical innovation, consistently driving successful project outcomes.
